**** FOR IMMEDIATE RELEASE ****

E-Mon Featured on Next “Green Energy Show With Bill Tauber” on L.A.’s KRLA (AM 870)

Southern California listeners can tune in on Saturday, May 30, 2009 from 7:30 - 8:00AM to hear E-Mon’s President/CEO discuss submetering’s vital role in managing energy use in the green facility environment

LANGHORNE, PA—May 28, 2009—[E-Mon, LLC](#), the electric submetering market leader and manufacturer of the widely installed [E-Mon D-Mon®](#) product line, will be the featured topic on the next edition of “The Green Energy Show with Bill Tauber.” Scheduled for Saturday, May 30, 2009 from 7:30 to 8:00 A.M., The Green Energy Show is heard every Saturday morning on radio station KRLA (AM 870) in the greater Los Angeles metro area and beyond. The show can also be heard live on the Internet by clicking “Listen Now” at www.krla870.com.

Hosted by Bill Tauber, a nationally recognized expert in energy conservation issues, the Green Energy Show is Southern California’s first and only regularly scheduled radio talk show covering a wide range of energy-related topics and interviews with leading industry experts.

Tauber’s featured guest on Saturday, May 30th will be Don Millstein, President and CEO of E-Mon and a 20-year veteran of the energy conservation and management industry. Don and Bill will discuss how submeters are being used in commercial, industrial and multi-family facilities, as well as institutional applications, to dramatically cut operating costs and conserve precious energy resources.

The segment will also explore how submeters can help facility professionals obtain certification points under LEED, Green Globes and other building performance assessment systems gaining traction in the wake of budget constraints and tightening public and private-sector energy policies impacting the California facility landscape.

About E-MON, LLC

Established in 1981, E-MON is the industry leader in solid-state electronic kilowatt-hour submeters, automatic meter reading software and other energy management products and services. Almost 500,000 E-Mon products are installed worldwide for tenant billing, cost allocation, demand side management, energy conservation and load profiling across the spectrum of commercial, industrial, institutional, governmental and multi-family residential facilities. E-Mon is an active member of the Federal Energy Management Program task force, Alliance to Save Energy, Association of Energy Engineers, [U.S. Green Building Council](#) and other organizations.
